Facing page above: Site plan
 Facing page below: From the southwest the shining ellipsoid both stands out and blends in with the landscape.
 This page above: Floor plans
 This page below: The curve of the exhibition space mirrors the curves of the surrounding mountains.

*A precast concrete-clad structure adds contrast to the transition between the metallic exhibition hall and the glass curtainwall of the wing building.
Inlay: Interior axonometric drawing of the entrance*

The Toyota City Stadium
